

The FCC's Open Internet Rules (net neutrality rules) are extremely important to me. I urge you to protect them.

As a single father raising 3 children, I count on the freedom of the internet to educate my family. All three of my children were homeschooled which could not have happened without a free internet.

I don't want ISPs to have the power to block websites, slow them down, give some sites an advantage over others, or split the Internet into "fast lanes" for companies that pay and "slow lanes" for the rest.. Now is not the time to let giant ISPs censor what we see and do online. Censorship by ISPs is a serious problem and allows corporate unfettered ability to collude to monopolistic results.

Comcast has throttled Netflix, AT&T blocked FaceTime, Time Warner Cable throttled the popular game League of Legends, and Verizon admitted it will introduce fast lanes for sites that pay-and slow lanes for everyone else-if the FCC lifts the rules. This hurts consumers and businesses large and small. Courts have made clear that if the FCC ends Title II classification, the FCC must let ISPs offer "fast lanes" to websites for a fee.

Chairman Pai has made clear that he intends to do exactly this. But if some companies can pay our ISPs to have their content load faster, startups and small businesses that can't pay those fees won't be able to compete.

This is an attack on family values and American freedoms. I worry that Chairman Pai, a former Verizon lawyer, has made his plans and will ignore me and millions of other Americans. So I'm also sending this to my members of Congress. Please publicly support the FCC's existing net neutrality rules based on Title II, and denounce Chairman Pai's plans. Do whatever you can to dissuade him.

Sincerely submitted,

Kent Buell
